They did a combined construction/operating permit (attached), so the public comment period was the same.

I'm trying to find information about the SIP permit, but it's not on their database, and I haven't been able to find the application either.

Did they public notice the syn minor or get comments on the application?

Oh, actually it ended 5/2/22. Sorry for the confusion, it's still on the draft TV page.

It looks like the other pellet facility trying to locate in Adel is Spectrum Energy. Have we seen anything come through for them?

Do we have a copy of the permit and statement of basis for the pellet facility? Was it shared earlier and I just missed it? I'm curious about the emissions factors that they used.
